The quantity is limited, and future prices are sure to be high. BUY NOW, and remember that it pays to trade with a house that saves you money.

## OH! MR. WEATHERMAN, WON'T YOU HAVE A HEART?

Preceded by a very black and stormy looking cloud Wednesday afternoon about 5:30 o'clock, Hartford and Ohio county was hit by one of the worst blizzards experienced here in many a day, the thermometer going below the zero mark Thursday night. Friday morning the inhabitants of this city arose to find everything frozen "jug tight," and the cold wave coming rather unexpectedly, no doubt caused quite a good deal of suffering among the livestock of the county.

**More Weather.**  
Since putting the above in type we have had some more weather—and, as the "devil" in our shop says, "It was some weather what I'm trying to tell you." After a slight moderation Saturday from the zero weather of Friday, a very high wind, assuming cyclonic proportions at times, accompanied by snow, ushered in another blizzard, Sunday and the mercury in the thermometer didn't stop on its downward journey until it had again reached the 0 mark. There was a drop in temperature of 30 or 40 degrees within an hour—so radical was the change that those who went to Sunday School minus wraps, felt the pinch of old man winter before getting home. Speaking individually, we have had enough of winter, and will more than welcome the song of the blue bird—the forerunner of spring, but until we hear the chirp of said blue bird, we will have to be content with the philosophy of the wag or sage who said:

"The weather is cold—  
The weather is hot,  
We'll have weather  
Whether or not."

## SMITH HOOVER

## Has Narrow Escape When Train Hits His Automobile.

In a message to his brother, Mr. Loney Hoover, who is in the bottling business in this city, it was learned that Smith Hoover, now a resident of Dyersburg, Tenn., had a narrow escape from death when the automobile in which he was riding was struck by a fast Illinois Central freight train, and dragged a considerable distance. That Mr. Hoover escaped with his life is remarkable. He was pretty badly bruised up.

## CO-OPERATIVE TOBACCO ASSOCIATION MEETING HERE FEB. 2, 1917

The tobacco growers of the Co-Operative Tobacco Association of Hartford Magisterial District, met at the court house February 2, 1917, Chairman L. B. Tichenor calling the house to order; O. R. Tinsley acting as secretary.

1st. Motion and second for the chair to appoint committee on resolutions. Motion carried, and the following were appointed as committee: W. H. Parks, C. F. King, Worth Tichenor, E. P. Bennett and V. W. Goff.

While the committee was out there were several good speeches made which were enjoyed by all.

Our chairman, L. B. Tichenor, made a fine talk in the interest of the organization going in to details from the birth of the organization to the present, making it plain and satisfactory to all.

W. C. Blankenship was called for. Responded with a good and instructive talk. Wound up by saying pooling was the only salvation for the farmer.

Prof. E. S. Howard and others made short talks which were to the point.

At this point the committee on resolutions was ready to report. Motion, second and carried to receive the report and discharge the committee. The report as follows:

Hartford, Ky., Feb. 2, 1917.  
We, your committee on resolutions submit the following:  
1st. We congratulate the finance committee and the tobacco growers on the wonderful fight they have made in the way of raising the prices of our tobacco, and we want to especially commend the farmers of this county for the way they stood by the pool in the times of great temptation of better prices being promised them on the outside; and we further believe that practically every pound of tobacco pooled in the county will be delivered by the poolers.

2d. We desire to extend our thanks to the receivers and graders of the delivery points in the county and assure them that we appreciate the way that we have been treated by them.

3d. We commend the manner in which the tobacco was handled the past year and we recommend that the same course be pursued the coming year.

4th. Inasmuch as we believe in pooling of tobacco in the Green River district has brought about profitable prices and we therefore urge and insist that every man put his shoulder to the wheel and do every thing in their power this coming year for their future advancement and the whole country in general.

5th. We want to thank the papers of this county for the interest they have manifested in our behalf.  
W. H. PARKS,
